Shoji Sliding Door Kit

Sliding doors are one of the many ways to create a Japanese look for your home. They are easy to install and can add a lot of character to any room. They can also be used to store things.

If you're in the market for a sliding door you may want to consider purchasing a Shoji. These doors are made from wood and paper. There are a variety of sizes and designs to choose from.

You can choose from three, two or four panels. The panels are typically 16-17mm thick. Some manufacturers make use of acrylic plates for sliding shoji screens. This material is more durable than rice paper.

UPVC is a different alternative. UPVC is less expensive than aluminium, however it is susceptible to warping and degrading when exposed to sunlight. Besides, UPVC is not as durable as wooden frames. It is also a popular material used on a patio, balcony, or deck.

A wide opening is required to properly install sliding door. You can even have a pocket sliding door installed. The system comprises the sliding panels and tracks that slide into the walls.

The track made of metal on top of the closure has been welded. On the bottom, there are special dowels invisibly that prevent swinging movements.

A Shoji sliding door is a great option to create the Japanese style for your home. The design is simple but beautiful. Although they have a traditional look, they're contemporary.

For decades, Japanese sliding doors were used. They are commonly found in barns, but they are now a popular feature in modern homes. Utilizing them will allow you to take yourself back to the early days of Asia.

Sliding doors can be used for room dividers, cupboard doors, entertainment system doors, floor-roof closings. You can still install sliding doors even there isn't a lot of space for floor.

Although they aren't cheap, Shoji sliding doors are stunning additions to your home. They not only improve the overall aesthetics of a room, but they can also give the illusion of privacy. You can also use them to divide a room or kitchen into two sections.
