 Business Training

Contents

Video overview

Step 1 - Open your Safari settings

Step 2 - Clear History and Website Data

Step 3 - Turn on private browsing

Comments

Step 1 - Open your Safari settings

- Tap the "Settings" icon
- Tap "Safari"

Step 2 - Clear History and Website Data

To delete your browsing history:

- Tap "Clear History and Website Data"

i This removes the list of websites you have visited. When there is no history or website data to clear, this setting will turn grey. The setting might also be grey, if restrictions are set for websites.

- Then tap "Clear History and Data" to confirm

i Other devices, using iCloud to sync Safari data, will be cleared as well.

Step 3 - Turn on private browsing

If you want to visit sites without leaving a history, you can turn on private browsing. To do so:

- Tap **Safari**
- Tap the **Tabs** icon in the bottom right corner of your screen.
- Tap **Private**, then tap **Done**.
